

Export Compass

Doing stuff with Data😊

Summary

- People appreciate the opportunities that this raises
- They need it to be more focused to their jobs
- The various data sets can be confusing
- Labelling needs to be in Plain English
- All data on a page needs to be able to cross filtered
- Less is more

Welcome to Export
Compass

The latest version of Export Compass is called [Export Compass Tabular1](#)

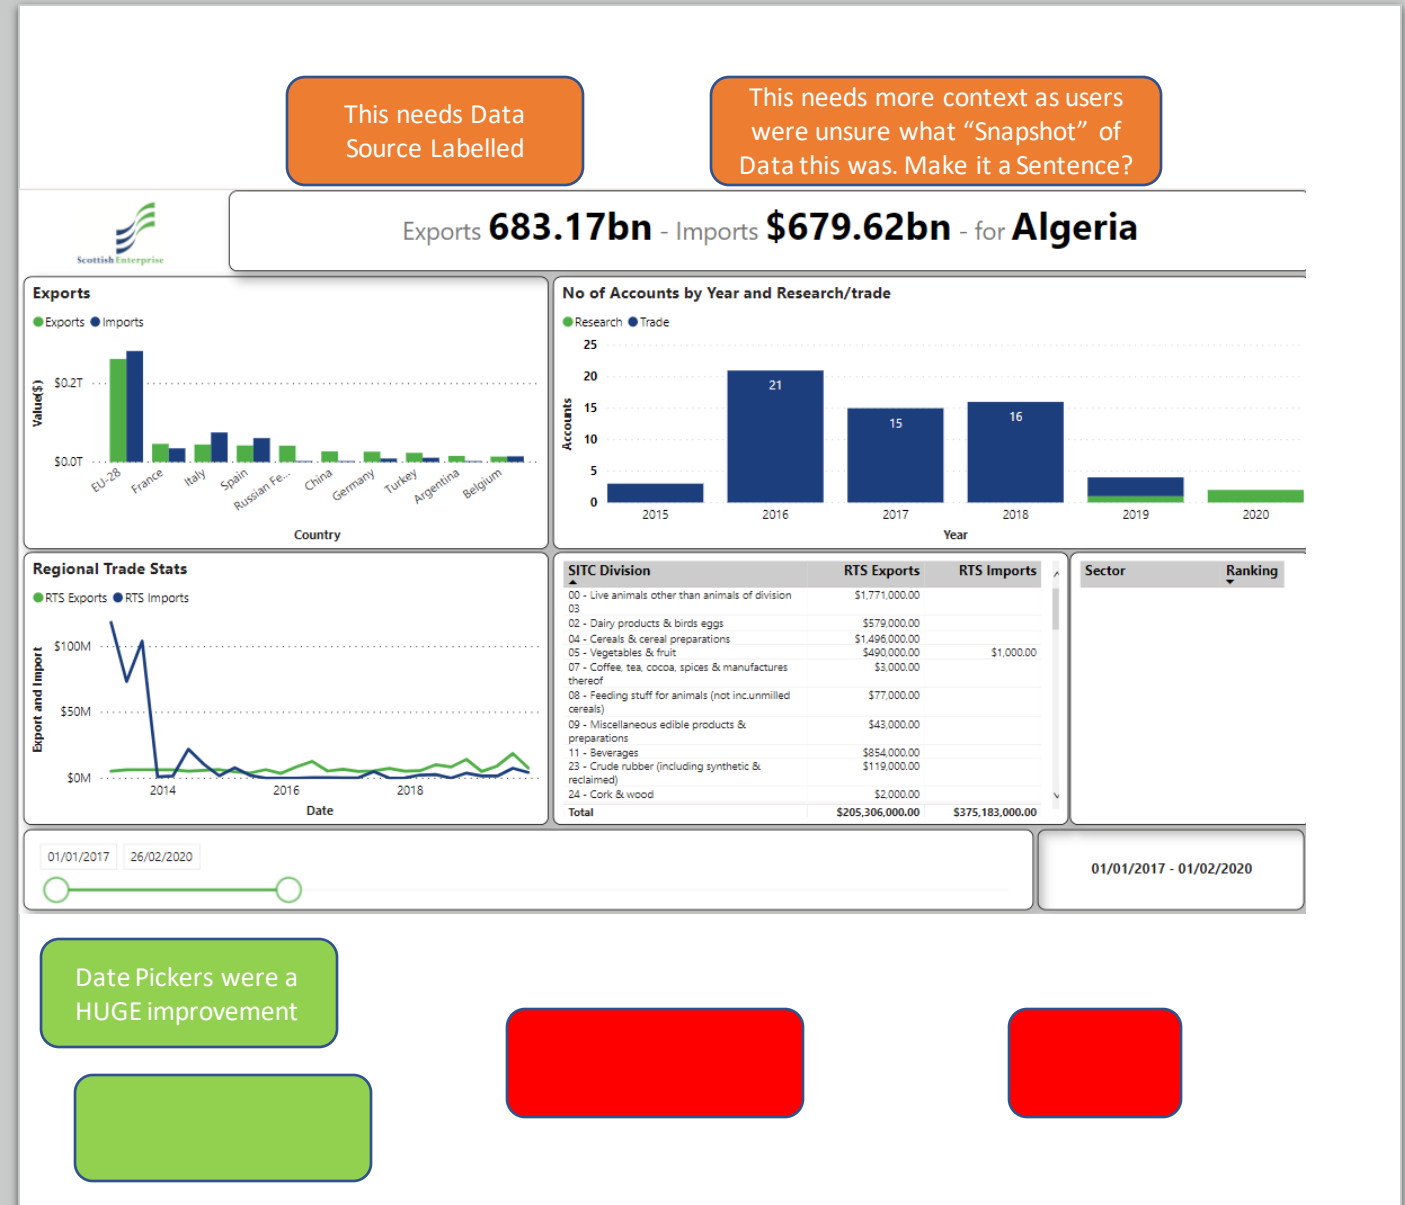

<https://app.powerbi.com/groups/40b25330-caf2-49cf-aa0b-025e8430a4a5/reports/f54ad1e9-d132-4fc7-ac81-59472e83dbc5/ReportSection6583e71e974e83994424?tenant=50374495-fdde-4d04-bc5c-574982680e19>

Data Sources

Export Compass pulls together data from:

1. HMRC (RTS)
2. UN Comtrade
3. Scottish Enterprise Export Performance Data
4. Export Statistics Scotland

Pages

- AAA
- BBB
- CCC
- DDD
<https://scotentsd.github.io/content-style-guide>
- EEE

Filters

- AAA

Language

- Accounts vs Companies
- HS vs D2 & D4
- Reginal Stats vs HMRC
Scottish Regional Data

Cross filter

- Cross filtering is inconsistent

Filter panel vs Clicking on graph data point

- The right hand filter panel only filters

More detail – But hidden

- Right clicking on

Design

- Dots on months (Clickable signifiers on line charts)

Bugs

- Afghanistan
